Im wide awake
it's time to make it on my own
Wide awake
The dream is over
Im wide awake
it's time to make it on my own
Time to find my way back home
The dream is over
Im wide awake

there's no story left to tell
No answers left to find
there's no use in looking back
At what's been left behind
No more dancing in the dark
No Promise left to break
The road ahead is waiting for the steps that i should
take

there's no letter left to write
No captains left to kirk
there's no use in going back
To what would never work
No more dancing in the rain
No promise left to break
The road ahead is waiting for the steps that I should
take
