I'm a bad boy as you know
Everything I say is wrong,
I know, I know

Chocolate mousse on the wall
I know how to have a ball
I know, I know

Anything is all I want to be...anything
Anytime is all the time I need, anytime
It's all the time I need!

This is my life, please tell me
The easiest way out of here
Cause I don't know, i don't know

I'm a sad boy don't you know
I would like someone to show
That I know, I know

Anything is good enough for me...anything
Anytime is all the time I needed,
Anytime, anything... is all I want to be!

Anything is all I want to be
Anytime is all the time I need
Anything is good enough for me
Anytime is all the time I need
Anytime, anything...
Is all I want to be!
