How many days gone by, I don't know anyone no more
I feel shy, going for a walk, sky blue sky
And (?), let them go
Can't see me now, I see the world and you
You're not allowed, I see the world go round
Can't see me now, I see you
How many days gone by, I don't know why we have to
fight
It's not me, eating up the words, all I give
People still want me, let me go
Can't see me now, I see the world and you
You're not allowed, I see the world go round
Can't see me now, can't see me now, I see you
How many days gone by, many dreams have died, I
don't care
