How am I supposed to reach the sun
All this anguish bringing me down
Somebody help me, anyone, let me out
Got to get away, don't want to run
Got no time to turn around
Somebody help me, anyone, let me go
A cold, hard pain, beat myself insane
Couldn't kill you
A cold, clean pain, beat myself insane
Couldn't kill you
Don't know what you want, leave me alone
Why me, I've done nothing wrong
Somebody help me, anyone, let me go
I don't want to feel this pressure on
Heartbeat speeding, panic comes
Somebody help me, anyone, let me go
A cold, hard pain, beat myself insane
Couldn't kill you
A cold, clean pain, beat myself insane
Couldn't kill you - I couldn't kill you
Let me go - let me go - let me go - let me go
A cold, hard pain, beat myself insane
Couldn't kill you
A cold, clean pain, beat myself insane
I couldn't kill you
