"Never Killed Anyone"

Visit "[Never Killed Anyone](#)" on MotoLyrics.com

She was using her lips to hypnotise my hips
- but I was not around
She told me words that I'd never heard
- but I was already gone

Singin' I - I'm not used to use
That kind of language
I - I never killed anyone

She gave me a gun and said let's
Have fun
- but I was not around
She told me the word but I never
Heard
- cause I was already gone

Singin' I - I'm not used to use
That kind of language
I - I never killed anyone

Singin' I - I'm not used to use
That kind of language
I - I never killed anyone
