If you say you love me girl
I say you're in love with
Love itself

If you say you love me girl
I say you're in love with
Someone else

I try to find my way down by the river
Thinking is easier when you don't
Have to hide
A goodbye

Suddenly I missed her
Suddenly I loved her

If I look at you and say
I want you back
I'll be your slave

You just raise your head up high
You walk away
Please tell me why

I try to find my way down by the riverside
Thinking is easier when you don't
Have to hide
A goodbye

Suddenly I missed her
Suddenly I loved her
