i've got this feeling
things are going right
i'm happy, so so happy
the sun is shining bright

i've got the daytime
i've got the nighttime
i've got today time
i've got tomorrow

and every day, early in the morning
every day, i'm up and bright
every day
every day, i;m happy for today

i've got this feeling
things are going right
i'm happy, so so happy
the sun is shining bright

i've got the daytime
i've got the nighttime
i've got today time
i've got tomorrow

and every day, early in the morning
every day, i'm up and bright
every day, early in the morning
every day, i'm up and bright

every day, early in the morning
every day, i'm happy for today
i'm happy for today
i'm happy for today
i'm happy for today
