Spare my heart
But please come and tell me
Before you tear it apart
My hearts gotta say
It's trying to tell you that
Oop oopee doop I love you

Don't go away
I want to be near you
And I want you to stay
No matter what you do
I gotta tell you that
Oop oopee doop I love you

We're going out today
We're gonna sing and play
And dance until the sun goes down
When you see that it's so fun
I know you'll be my number one

So now we're together
I hope that it's forever
And you'll stay here with me
Cause bells are ringing
My heart keeps on singing to me
Oop oopee doop I love you
Oop oopee doop I love you
Oop oopee doop I love you
