You always are around
Never seem to leave my ground
Until I started to fall
I didn't all

But now you keep on pesterin' me
Makin' me now want to bleed
I can't stand it at all
My conscience startin' to fall

But with each time it's getting worse
Now is where I fight my hertz
Now I'm flying round
I wanna walk my ground

The pain you've given me
All this misery
My life is in a rut
Why won't you give up
And go away, away, away, away, ah
People came into my strife
Tellin' me shit to save my life
Voices in my head
Tellin' me I'm dead

I'm trying to search the sky
Everyday I nearly die
Can help me through
Holding on for you

I don't want this life no more
I'm crying on a bathroom floor
I'm trying hard to stand
G*d took my hand

The pain you've given me
All this misery
My life is in a rut
Why won't you give up
And go away, away, away, away, away
