When I saw you I was not even looking  
I heard you scream without raising your voice  
Will I run or let you have your fun  
I feel like I ain't got a choice  
But maybe I ask to much or walk in the wrong direction  
All those thoughts drive me insane  
And I wonder how long I'll feel this  
Pain, is not really what it is,  
No this is something with a differnt name  
And you, you never tell me a damn thing  
I hope someday I'll learn to play this game  
But maybe I ask to much or walk in the wrong direction  
All those thoughts drive me insane  
And I wonder how long I'll feel this  
Fear, of course I fear the unknown  
Because the unknown is a stranger to me  
But if, if you erase the pj's  
The what would a stranger be?  
What would a stranger be?  
That remains to be seen  
Life goes on  
It's just the same every day  
Life goes on  
Though you think you feel this pain  
But maybe I ask to much or walk in the wrong direction  
All those thoughts drive me insane  
And I wonder how long I'll feel this  
Wonder how long I'll feel this  
(Repeat)  
Pain
