She's gonna go over to him  
Say that it's over with him  
She knows that their love will never win  
Say that it's over with him

She knows herself better than any man could  
When she's under his pressure she's not feeling  
misunderstood  
Such strange behavior  
From a man who is better than good  
Will he still love her  
If she wants to love him different way than he wants?

She's gonna go over to him  
Say that it's over with him  
She knows that their love will never win  
Say that it's over with him

She knows herself better than any man could  
When she's under his pressure she's not feeling  
misunderstood  
Such strange behavior  
From a man who is better than good  
Will he still love her  
If she wants to love him different way than he wants?

She knows he loves her

She can't love him like he wants her to love him  
She can't love him like he wants her to love him  
To love him  
To love  
To love
