"Supergood"

Visit "[Supergood](#)" on MotoLyrics.com

If I were you, I wouldn't talk so much
If I were you, I'd shut up
If you can't be like us, then go away
If you can't leave us now, then you have to pay

And I think, I think that we can be so tight
Or, at least be nice to us 'cause things will always be
And I think that we can be so tight
Or, at least be nice to us 'cause things will always be

Why do you have to like and talk like some
Why can't you forget the things you've done
We do more, well it's justice
This song is not the "Flippin' Beans"

But I think, I think that we can be so tight
Or, at least be nice to us 'cause things will always be
And I think that we can be so tight
Or, at least be nice to us 'cause things will always be

But we are here, we're just a few but that's alright
We know that you are near
And if you come over, then we'll look things right thru

If I were you, I wouldn't talk so much
If I were you, I'd shut up
If you can't be like us, then go away
If you can't leave us now, then you have to pay

But I think, I think that we can be so tight
Or, at least be nice to us 'cause things will always be
But I, I think that we can be so tight
Or, at least be nice to us 'cause things will always be
Things will always be, things will always be, things will
always be
