[Andrey Katzov]

What's left of us?

We are lurkers on this killing ground

Pale shadows in the middle of the night

We are candles burnt and worn out

Take a good look around

Cold, all I feel is cold

The beast has taken my soul

Three bullets in my back

Thus ends my life but

I'm glad I die in my land...

Proshaiy Stalingrad

Proshaiy...

Goodbye, I'm running out of time

I'm paying for my crimes

Father Koba, where are you now?

Don't leave me here to die

God, I've been told there was no God

But now I really fear for my soul

The beast, it crawls without a sound

The time has come for us all...

[Chorus:]

In silence we will die

Into darkness we subside

Now in glory we depart

But in Mother Russia we trust

This was my life

To kill and leave nobody alive

I hope this will suffice

85 frozen corpses should satisfy

The beast that lies...

Inside, I'm hollow deep inside

I'm 22 yet I've gone too far

My death is near, Stalingrad I'm here

My redemption lies in your hands

[Repeat chorus]

Now,  
Proshaiy Stalingrad,  
At last you're back to us,  
Proshaiy Stalingrad  
Your son bids you goodbye.
