AAAUUGGHH!

They have eyes everywhere, watch what you say
A knock on your door at night, taking you away
Forced deportation through storms of freezing snow
Where are they taking you, you will never know
Gone without a trace

The enemies

You have been erased

You are the enemies of the. STATE!

The iron curtain closes

There is no hope of escape

Live fenced inside barbed wire

Working years away like a slave

[Solo - Laux]

Just when you thought, your sentence would end

Stalin's hammer crushes you, time has been extended

Here in the Gulag, NO ONE GETS OUT!

No one... ever... comes out!

Those who disagree

Are enemies

Treason is erased

Stamp out the enemies of the. STATE!
