Descending! Into madness  
Sanity falling away  
Nothing remains from the world you have known  
Enter the realms beyond the gate

Twisting masses taking form beyond the murky black  
A scream breaks the silence and the skies begin to  
crack

Eyes burst forth from the body  
Their whispers seared into your brain  
Beckoning your descent  
You stare into the void and it calls your name...

Twisting masses taking form beyond the murky black  
Severed from reality, impossible to turn back  
Souls held captive, wither away and die  
Sickening screams of horror rend the affrighted skies

Trapped in the path of an oncoming STORM  
Looking behind the eyes of the dead  
Empty walls with no way out  
Lost inside this...

SEVERED! Severed Reality  
SEVERED! Severed Reality, Ugh

Lead: Laux  
Lead: Carroll

The mind falls into black abyss  
Nothing left the same  
Mouths emerge from every shape  
Howls like dust from the grave  
Within cryptic realms unknown  
Draped in endless night  
With all your might you try to escape  
but still you're lost inside...

SEVERED!
