

## Warbringer "Treacherous Tongue"

Visit "[Treacherous Tongue](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Spitting bile  
Spreading lies  
A warped perverted mind

Words that bite  
Words that bind  
Words that cannot ever be undone

The virus spreads and infects again  
Treacherous! Treacherous!  
The infection spreads like venom  
Treacherous! Treacherous tongue

...That ties  
Tongue that lies  
Only spreads deceit

Open mouth  
Closed fist  
The hammer of justice will strike you down!

The virus spreads and infects again  
Treacherous! Treacherous!  
The infection spreads like venom  
Treacherous!  
Treacherous tongue!

Crawling in the dirt like a snake  
How much more can you take?  
Cannot rest until I see you chained  
Retribution strikes, and you endure the pain  
Nothing Gained!
