Desensitized
The young will grow to
Not feel much of anything
And we just don't seem to care

Dollar signs
We need more footage
Cash in on the tragedy
Why aid in the repair

Please promise me today
That when it's through
You'll feel
Please promise me to day
That when it's through
You'll feel

Please

Movie camera
Strike a pose
We must have something special
Look they're dying on their knees

I'll give you my heart
Then you can
Sell it for the revolution
And ride that bitch for free

Please promise me today
That you will stop and feel
Please promise me today
That you will stop and feel

Please
