(Lyrics : Jani Lane / Music : Jani Lane)

When the sun came up today  
I asked him please to go away  
Something died in me last night  
I feel hollow on my inside  
We talked until the words were yells  
You?ll never understand me I can tell  
Oh, God I fell like hell  
Throw another penny in the wishing well  
Rain, rain, go away  
I don?t care much for the color grey  
If I stay too long hopefully  
I?ll get washed out to the sea  
And drown in my misery  
See your face looking down at me  
And if I asked you for help  
You?d hand me a glass of water  
Chorus  
Give me some give me one  
Who understands my meaning  
Give me some give me one  
Who won?t laugh while  
I?m bleeding  
Give me some give me one  
Who won?t laugh while  
I?m bleeding  
Give me sum give me one  
Give me love  
(Sister moon brother sun,  
Children stars give me one, sum of one)
