"Undertow"

Visit "[Undertow](#)" on MotoLyrics.com

You speak from both sides of your mouth
I tried to work it out
You hated me all along
I tried to get along

You talk to much for me
It's verbal therapy
I don't need words to fight with you
Just my left and civil right with you

BRIDGE
Make up your mind
Stop wasting my time

CHORUS
Then the storm broke
And the rain fell
Then the flood came
Made the river swell
Then the damn broke
I just let it go
I was pulled down
By the undertow
