You don't know what you're looking for
You're lost in the past
You don't know who you are anymore
How long will it last?

Well, it will last as long as you're gone
In the future or past
There's a crusher ahead
Because you mind real fast

If it was yesterday I would let you go
Are you happy if the answer's no?
It will soon be the time
To make it so, yeah

What's done is done
You need to set your ways
And that is you
You in your future days

The space is slim
So meet my everyone
So, please, I said
What's done is done

You don't know what you are any more
Just know where you've been
It doesn't matter how it all was before
Let the present begin
Big decision for a man in the daze
To leave the haze, yeah

What's done is done
You need to set your ways
And that is you
You in your future days

The space is slim
So meet my everyone
So, please, I said
What's done is done
What's done is done

Movement is a sign of life
Keep moving forward, life
There is no going back from here
In spite of all your fight

There's no point in blaming yourself
For the wrongs you've done
The game that is really numb
No need to be on the run

What's done is done
You need to set your ways
And that is you
You in your future days

The space is slim
So meet my everyone
So, please, I said
What's done is done
What's done is done
What's done is done

So, please, I said
What's done is done
What's done is done
What's done is done

So, please, I said
What's done is done
What's done is done
