We lost our luggage and we lost our smiles
We've been the melancholy brothers so many times
And when we went down to an unknown club
She did the best she could to sheer us up
Leona said
We could go in for free
Leona was
So pretty indeed
Infected by Madonna she was nr one
Haven't met a girl like that in a long, long time
Damn we had to leave I swear we had no choice
But one thing to remember is her tiny voice

We could go in for free
Leona was
So pretty indeed
Sometimes when your all alone
You're not expecting much from anyone
Maybe that's the reason why
She was so lovely to me
But if I get a super job
Then I will work, yes work really hard
To get me some money and go somewhere
And find a girl like her
