So you ain't got all your chickens home
But from what I do recall
You don't have incurable syndromes
So don't you worry 'bout a single thing
Don't you hurry, you're a future king

I know it's all in you
Just gotta find out what you wanna do
I know it's all in you
And deep inside you feel it too

They say you're lazy and don't wanna work
It's not too crazy to not wanna slave, you're not a jerk
So don't you doubt about your future plan
You're a knockout and I'm your biggest fan

I know it's all in you
Just gotta find out what you wanna do
I know it's all in you
And deep inside you feel it too

You know it's up to you
You always have an option
To choose what you wanna do
Take control or run and hide

It's ok to take a fall
If you have good intentions
As long as you give it all
You'll feel good inside

I know it's all in you
Just gotta find out what you wanna do
I know it's all in you
And deep inside you feel it too

I know it's all in you
The common sense, splendid point of view
I know it's all in you
All your dreams they can come true
