I'm so tired of people tell me how to be
Or what I should be doing
I like the way I live, or I do not live
like that
And this is what I say

Do not try to win me
I know my way of being
Why do you not see That's Up To Me

If you think all the funny things that I
I
But I do not think it is for you
You think that I his is the right way
Because you need to strive to make us think
as you

If you want to know what you'll find
Until you open your mind
Only me and let me show
But I will show you how I feel
I do not think it is much
And I hope you understand me too
