That's the kind of love

She said passionate kiss that burn my skin
That the kind of love I want
A man who will stand by the woman I am
That's the kind of love I want
She's said I want love that's strong and true
One that all never walk away on u

That's the kind of love that she really wants
That's the kind of love she's willing to wait for
that's the kind of love the love of all time
If you wanna be mine
She said that's the kind of love that's the kind of love I
want

Arms to hold me but wont hold me back
That's the kind of love I want
Romeo and Juliet with out the last act
That's the kind of love I want
she said I want love that will always be a
Flame that will burn eternally

That's the kind of love that she really wants
That's the kind of love she's willing to wait for
that's the kind of love the love of all time
If you wanna be mine
She said that's the kind of love that's the kind of love I
want

That's the kind of love that she really wants
That's the kind of love she's willing to wait for

That's the kind of love that she really wants
that's the kind of love the love of all time
If you wanna be mine
She said that's the kind of love that's the kind of love I
want

That's the kind of love that she really wants
That's the kind of love

That's the kind of love that she really wants
That's the kind of love
That's the kind of love that she really wants
That's the kind of love
That's the kind of love that she really wants
That's the kind of love
That's the kind of love that she really wants
That's the kind of love
