Visit "[Street Of Dreams](#)" on MotoLyrics.com

Deep in the heart of a city night
There's a young girl dancing free
Twiling in circlce by the front porch light
Out on the street of dreams, out on the street of
dreams
Further down theres a family
Theres a young couple in their teens
Their baby smiling at a barking dog
It was down on the street of dreams
There on the street of dreams
And they still go where they want to
And the will be who the will be
Cause there are no walls around their hearts
On the street of dreams, their on the street of dreams
Two older men talk of days gone by
And of a world they've never seen
Their hearts are young but they've traveled far
On down the street of dreams, their on the street of
dreams
And they still go where they want to
And the will be who the will be
Cause there are no walls around their hearts
On the street of dreams
And you can go where you want to
You can be who you will be
Cause there are no walls around your heart
On the street of dreams
And you can go where you want to
You can be who you will be
Cause there are no walls around your heart
On the street of dreams, we're on the street of dreams
Deep in the heart of a city night
Theres a young girl dancing free
Twiling in circlce by the front porch light
Out on the street of dreams, out on the street of
dreams
There on the street of dreams.....
Were on the street of dreams.
