The one I always want near
Tell me why aren't you here
Because I threw it away
Last night I learned the hard way
Tuck me with your confidence
Strip away the shame
Take away my identity
And beat me in your game
Delusions are destructive
Harmony is discord
Fluctuate the conventional
And stimulate the bored
Swimming in self disgust
Reeling in your repose
Entangled within festering lesions
Taking off your clothes
It all makes perfect sense
Pupils twitch muscles tense
Lies and disease are all real
You do not feel
Delusions are destructive
Harmony is discord
Fluctuate the conventional
And stimulate the bored
It all makes perfect sense
Pupils twitch muscles tense
Lies and disease are all real
You do not feel
Delusions are destructive
Harmony is discord
Fluctuate the conventional
And stimulate the bored
