Nothing is forever
Everything is temporary
Nothing lasts forever
All things must die
Inflict fresh wound
Prove my love for you
Tied up, smashed up
This is what I have to do
Strawberry fields and pussing sores
Nails like claws needing more
Pushing forwards into the black
Always taking never giving back
You are the one that swore it was true
The monkeys I had I gave all to you
Jealousy and searing pain
Anger and you to blame
Nothing is forever
Everything is temporary
Nothing lasts forever
All things must die
Nothing is forever
Everything is temporary
Nothing lasts forever
All things must die
Nothing is forever
Everything is temporary
Nothing lasts forever
All things must die
Nothing is forever
Everything is temporary
Nothing lasts forever
All things must die
Nothing is forever
Everything is temporary
Nothing lasts forever
All things must die
