Early morning when I leave your side
Start my car and drive
Before the new day's dawning
You know I'll return
Apart we won't survive

If love doesn't mean enough
(Really mean enough)
Somebody invent another word

Oh oh oh in the nature of love
Never can say goodbye
Oh oh oh in the nature of love
Never can say goodbye

Time and time again
Seems like we're hitting our heads against a wall
Fighting, cursing, how can we stand by?
And let it all slip away

If love doesn't mean enough
(Really mean enough)
Somebody invent another word

Oh oh oh in the nature of love
Never can say goodbye
Oh oh oh in the nature of love
Never can say goodbye
Oh oh oh in the nature of love
Never can say goodbye
Oh oh oh in the nature of love
Never can say goodbye
