I went sad no because I can't feel joy
Not for there wasn't reason for
I went sad but for I can't see the hope

I went sad...

It was lying in the corner
Little & trembling the future was dead
It was lying in the corner
And I can't make change

I can change myself
I can change you
But I can't change the monster with 1000 hands
Thousands legs & only one mind
A lots of strings hanging from the sky
Just a puppet, who holding it?

I left you dreamless
