Fomorian lord ruled with an iron hand  
Piracy maintained by this darkened god  
Tyrannical reign, o'er Eireann's sons  
Starve and shame, into submission one and all

Disciples of chaos - disrupting  
Destroyer of order - dominating  
Tipping the balance - oblivion  
Extinguishing light - darkness

Dominate de Danann, strip away then pride  
Threat them like tenants, there's no place to hide  
A tribute collected, heads hung in disgrace  
Hollow eyes of defeat, proud race losing face.

Balor - Evil Eye  
One look - you will die  
Balor - Evil Eye  
Unleashed - strangled cry.

There's one spark amongst the dying embers  
Born to ignite red passions raging  
Lugh Samildeanach, true inspiration  
Equilibrium by sword and sorcery.

Chaos king meets prince of light  
Fulfilling omens of foresight  
'Twas written blood must slay blood  
Symbolic duel, redress the balance.

Sword of Light  
Quell the darkness  
Shield of order  
Vanquish the chaos
