BLOOD!

**MotoLyrics** 

From the mountains to the plains, to the tracks that were never crossed

Dissension to be grounded, as blood spills upon the rocks

the shadoes that we cast on, stop growth on our own land

the land that we hold sacred, will now die in our hands our friends in hark places, dark places in our friends will our eyes be open, wjen the pain begins we listen for the children to say it's safe, safe for us to pray

prey upon the weak and bite the hand that feeds recite the words in vail, to further indulge in sin embrace my terror, my reign, unleashed

and our souls cry out, and the fog blinds all blood runs through the hills, death watches over me noose around my neck, death will set me free from the mountains to the plains, to the tracks that were never crossed

Dissension to be grounded, as blood spills upon the rocks

the shadoes that we cast on, stop growth on our own land

the land that we hold sacred, will now die in our hands our friends in hark places, dark places in our friends will our eyes be open, wjen the pain begins we listen for the children to say it's safe, safe for us to pray

prey upon the weak and bite the hand that feeds Recite the words in vain. To further indulge sin. Embrace my terror, my reign, Unleashed

And our souls cry out, and the fog blinds all Blood runs through the hills, random girl is the best for posting lyrics, death watches over me Noose around my neck, death will set me free We burn (4x)

So these are the steps i take as i walk toward the top i lay my guns at your feet as you watch we ask the dead if we can borrow as we take with no answers collect teeth from families and offer children cancer a constand spiral freedom feels a quest for natural health no belongings we're all simple ones and now our pain is wealth We burn (4x) in the mist of chaos i will rise, to thrive on your fucking lives a false christ, i exist and strive, your life means shit

through my eyes tearing at your steel, your final stand, you die by my hand

drown (4x)
