### BROKEN HEART

1. A broken heart who can bear  
A shattered dream who can give  
A wounded soul who can heal o o o  
When tears are cried every night  
And the sky above is not so bright  
Nothing seems to work out right o o o o  
The pain inside, the tears you cry  
They seem to be all you can feel

CH. Come on unto Him all ye that labour  
And are heavy laden at heart  
Come on unto Him, if you really want to heal  
Come on unto Him if you need mending of the wounds  
inside your soul  
Oh He hears the cry of a broken heart

2. When hopes and dreams we hold so high  
Get crushed before our very eyes  
Love so deep and pure we know is no more  
Where to go when all is lost  
Who can take away this hurt  
You font have to go that far o o o o  
There is One who cares, a God so near  
Just a call brings all His love

Repeat CH

### Bridge

He says Iâ€™m with you always  
You can cast your cares on me  
Nothing can separate you from my love

Modulate and repeat CH once
