Looks like you know what you want
So let go and look over around you
Your pirouette will go around the world
Your pirouette will show you any sight

Silent(ly?)
Darkening light
Silent?
Darkening light

Don't bother leaving
We're already gone
Truth was retreating
Now it seems we lost

Don't bother leaving
We're already gone
Truth was retreating
Now it seems they're gone

Doomsday it's so quiet

You hardly know it's there
Dollars of triumph
They're loaded down some well

Thunder is expanding
Like your face into the ground
Thunder is expanding
And the rate will wear you down

The best times were better
When you didn't need to think
The eagle or monster
Is pulling down our feet

Let's chase it all we caught
The beast we are free
And don't bother leaving now
We're already gone
