### "You Do You"

Visit "[You Do You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Well I heard a rumor  
The new man no words  
Talking about us  
And making a long list  
Of to-do's that they don't need from you

They want to forget  
You were ever born  
They want to reset  
You were ever born

How to begin  
Down the corner right  
How to begin  
Down the ground and right  
How to begin  
Shout

Well I heard a rumor  
The new man no words

Talking about us  
And making a long list  
Of to-do's that they don't need from you

They want to forget  
You were ever born  
They want to reset  
You were ever born

To let the forces  
Harm your heart  
Don't let the rumors  
Get you down

So what? Who cares?  
You be strong  
Don't let the rumors  
Wear you out
