I said I'll stay here with you until
I figure out what to do
People don't change over night
But I thought that I'd ask you to

I want you to know
I want you to know
That my love won't cost anything
My love won't cost anything
Nothing good ever cost anything

You say the words that I hold on
Like a child holding on to a dream
And I say the words you don't know I mean
Coz I never told you this before

I want you to know
I want you to know
That my love won't cost anything
My love won't cost anything
Nothing good ever cost anything... anyway...
