Take a look at me
So you can see
The hate and violence
That is inside of me
All the things you've done
All the things you've said
Created a war

But now it is the time
That you sit back and listen to me
Well is that so hard for you to do
Why don't you just calm down and fuckin' try

You're now laying down
Knowing that you've lost
Doesn't mean I've won
But I'm sure as hell don't care
Who the fuck are you
Who the fuck am I
We've been through a lot

But now it is the time
That you sit back and listen to me
Well is that so hard for you to do
Why won't you just calm down and fuckin' try!

Now what!
Now what!
Now fuckin' what...
