Making friends with the moon, oh one can't start to
soon
Cause if you don't, then you will find yourself
Crawling in corners, rolling in circles, forgetting about
the soup

When you loose all your skin, cause you let it all bang
And you just tried 15 times to get a rip
Dispose your good thoughts, making the wrong ones
better

Oh I have to make a choice now
Oh I can not flip a coin

You're living up to game show, cause it just feels so
good
You're collapsing in a crowd and you ask yourself
Dispose your good thoughts, making the wrong ones
better

Making friends with the moon, oh one can't start to
soon
Cause if you don't, then you will find yourself
Crawling in corners, rolling in circles, forgetting about
the soup

Oh I have to make a choice now
Oh I wish I knew a Wiseman
Mmm we all go blind
Mmm live life so blind
