(Intro)

Oooh baby do you know what that's worth

Oooh Heaven is a place on Earth

You say in Heaven love comes first

We'll make Heaven our place on Earth

Oooh Heaven is a place on Earth

Oooh Heaven

Oooh Heaven

Oooh Heaven

Oooh Heaven

I thought about it and boy I swear to you

You are the one, the one I want the night through

From the moment we met I already knew

We would be together 'til our lives were through

We can hug and kiss to make it all right

And can be together almost every single night

Yeah I know you want, I know you want me to

So I'll gladly come over and do what we do

(Chorus)

Oooh boy you make my heart beat fast

I know that this is going to last

When were together it feels so right

You are the only one I think of at night

Oooh the only one I think of at night

Do you remember that time we had a huge fight

We didn't even talk for a whole fourth night

I lay in bed and cried all day

Only you could make the sadness go away

I had never felt that kind of pain before

Feeling like my heart was jammed in the door

But just the sound of your voice

Or the touch of your hand

Could turn my heart into a pile of sand

(Chorus)

I lay alone in my bed

Thoughts of you running through my head

I hear a noise on my window pane

I look and see you standing in the rain

I run downstairs and open the door

I feel my heart falling to the floor

I step outside and walk to you

I know just what I have to do
If you take my hand and hold me tight
I've never felt like, but it feels so right
Leaning in for our second first kiss
Never again will we fight like this
(Chorus x2)
