Sit still, take a breath
This is like a slow motion lung collapse
And its too hard to forget
We've never been down this road before
But i swear to god we'll make it if we never look back,
never give it up
And these words wont change a thing
But what we do tonight will make the difference
between you and me
And i swear i cant let this go, untill my head hits the
floor
And we know we cant let this go, we cant give up
anymore
take two hasnt gotten any better yet
But i think it takes twice the fight to make it out alive,
and we'll bring it back to one day at a time
Well take each step towards a better life
This is like jumping off a bridge
Knowing that I'll break my legs, before i break this
stride
And i swear i cant let this go, untill my head hits the
floor
And we know we cant let this go, we cant give up
anymore
we cant give up, we cant give up
Tonight ill lie, ill cheat, ill steal just to see if this rush
means everything like you
Now say it back, Bring it back
