One part medication
One part assassination
My lost generation
God's lost on me

One part in toxication
One part fascination
My losing generation
God's lost on me

Look what we've started
Look what we've started
Look what we've started, something about us
We want always be ordinary
Look what we've started, something about us
We want always be ordinary
Look what we've started, ordinary
Look what we've started, ordinary

One part medication
It is all about hallucination
Oh. I need my advices like I need a vacation from my
generation
From my generation

Dear administration, I'm still waiting for my
confirmation
I hope you access my resignation from my generation
From my generation

Oh, Look what we've started
Look what we've started
Look what we've started, something about us
We want always be ordinary
Look what we've started, something about us
We want always be ordinary
Look what we've started, something about us
We want always be ordinary
Look what we've started, something about us
We want always be ordinary
Ordinary, ordinary, ordinary

Another day in your life
Another way to make it right
Break your way
Time to say it in your own way
Change your mind a little if you can
Another word still is there
Time to quit
Time to make it in your own way

Look what we've started, something about us
We want always be ordinary
Look what we've started, something about us
We want always be ordinary
Look what we've started, something about us
We want always be ordinary
Look what we've started, something about us
We want always be ordinary
