Coming down hard on me  
Making me fall  
Making a big man feel  
Not tall at all

Making me nervous  
Making me twitch  
Making me no-good, lazy  
Son of a bitch

And it's coming down the satellite  
Laser beam and it will be all right  
But I can't breathe  
And I can't sleep at night

Are you playing by a stranger's rules?  
Are you watching TV, is it watching you?  
But I can't breathe  
And I can't sleep at night

Sending out a call for something new  
Somebody help me escape tonight  
They're watching me, they're watching you  
I don't even know, I don't even know why

Help me get a call out to my crew  
Somebody hit me with kryptonite  
They're watching me, they're watching you  
I don't even know, I don't even know why

Turning my heart around  
Turning my head  
Turning my red, white, and blue  
Into black instead

Turning my whole world  
Turn it around  
Turn on the six o'clock news  
And see the clown

So won't you tell me what you're gonna do?  
Are you watching the TV, is it watching you?

'Cause I can't breathe,  
And I can't sleep at night

Sending out a call for something new  
Somebody help me escape tonight  
They're watching me, they're watching you  
I don't even know, I don't even know why

Help me get a call out to my crew  
Somebody hit me with kryptonite  
They're watching me, they're watching you  
I don't even know, I don't even know why

What? What? What? I think somebody's trailing me, I  
feel your eyes all watching me, every eye is bugging  
me, and I don't even know, I don't even know why, why,  
why, up in the sky is a big ol' camera, takin' pictures of  
a little man on the internet in a stereo line where the  
modem go so slow, slow

Sending out a call for something new  
Somebody help me escape tonight  
They're watching me, they're watching you  
I don't even know, I don't even know why

Help me get a call out to my crew  
Somebody hit me with kryptonite  
They're watching me, they're watching you  
I don't even know, I don't even know why

Sending out a call for something new  
Somebody help me escape tonight  
They're watching me, they're watching you  
I don't even know, I don't even know why

Help me get a call out to my crew  
Somebody hit me with kryptonite  
They're watching me, they're watching you  
I don't even know, I don't even know why

What? What? What? What?

Oh no Oh no Oh no
