And I know I don't wanna be the one
Who fixes all our wrongs
And after all is said, you know
I never heard one I told you so

And I can't do this alone

And all along, I didn't wanna be the one
To tell you I was wrong
And you and I are a lost cause

And you, you never told me the truth
Why I trusted you I'll never know
Or never see the things we hide
Behind our smiles and our teeth

I can't do this alone

And all along, I didn't wanna be the one
To tell you this was wrong
And you and I are a lost cause
