Miles between you and I  
Lies the last place  
I hung my heart...  
Poetically speaking, it's never left  
But I doubt anyone would have noticed.  
Well anyone other than you  
And the insects who I'm sure have grown fond of  
The taste of my flesh and blood

Inside/outside, you embody  
The greatest part of me  
A part that I have been missing.  
And lately I have been  
Distracted days on end  
And I think this time it's the weather speaking  
But I sometimes see you in my dreams

Held high, tight, closed and always, alone.

If I could only call out your name in my sleep  
And hear the echo rattle inside my mind for days.  
I'd let you know,  
"I'm right here with you"  
As sure the sun will always shine  
As sure as the sun will always set.

Do you get the picture?  
Infinitely speaking.  
I couldn't paint one, as vividly as the words  
I sometimes can't remember.  
Yet still manage to  
Dribble incoherently onto this piece of shit  
I consider a canvas.

All I know is this year Summer came to soon  
And so did you  
So without any further adue  
And well what I am speaking of, speaking of (well it  
resides in the dark)  
Don't know how else to put it  
(Other than, is simply to say) simply  
That I love you
