How much can you see from across the room?
Switch off the lights to suit the mood.

This party is old now
My attention along with all my hopes have wasted
away.
I'll watch you work this room, don't make a move too
soon.

Let's go and save the night
We can walk and talk forever
I'll put the sparkle back in to your eyes
Just not this time.

It's not fancy dress so stop trying to impress
All the rest with all your fancy clothes.
Your attitude's not welcome here, I don't think so.

Let's go and save the night
We can walk and talk forever
I'll put the sparkle back in to your eyes
Just not this time.
