This has been going on for day
And I know that I shouldn't feel
Shouldn't feel this way
I shouldn't feel, I shouldn't feel this way
And now it's you I've left tonight
Now it's you I left
So just brace yourself for this
Don't show, don't show me that
Your desperate
Don't show, don't show me that
Your desperate
And so this, is how it has to end
I'm leaving you now, I'm off the coach
And I'm out your front door
And I'm not coming back anymore
And so this, is how it has to end
So just tell me, this has been
So just tell me, going on for days
All of, your secrets
So just tell me, this has been
So just tell me, going on for days
All of, your secrets
And I know that I shouldn't feel
Shouldn't feel this way.
I shouldn't feel, I shouldn't feel this way
And now it's you I've left tonight
Now it's you I left
So just brace yourself for this
Don't show, don't show me that
Your desperate
Don't show, don't show me that
Your desperate
I can see that you don't need me now
