Start from square one, let it fade
It's hard to keep a story straight
When you've heard it once you've heard it a thousand
different ways
On the road weeks feel like days
At home I sit around and wait
To get back inside the van
Turn that key and drive away

This is our way out it's
Our escape from another day and another dollar
Situation still under control
Please don't tell me that I'm going nowhere fast
This is all I have, and this is all I ever want to be

Tear my posters off these walls
And put 'em up inside the van
It damn sure isn't much, we're just doing what we can
It's worth it all to just be free
300 miles to 585
The only time I really feel like I'm alive

This is our way out it's
Our escape from another day and another dollar
Situation still under control
Please don't tell us that we're going nowhere fast
This is all we have, and this is all we ever want to be

This is all we have
And this is all we want to be
This is all we have
And this is all we want to be
