

We Say Summer "Big City Dreams"

Visit "[Big City Dreams](#)" on MotoLyrics.com

And I can't say I'll stand around and watch you go
But I can promise you we'll walk around like
We know what we do and how we do it
You know I'm down here and I'm tripping up

So let's take it back to the nights
When we'd watch the sun go down
And the city lights were all we knew, all we knew.

You know I'm trying hard and I won't go down 'cause
you won't give up
But my head's filled up and it all comes down
To what you do and how you do it (how you do it)
You know I'm down here and I'm tripping up

So let's take it back to the nights
When we'd watch the sun go down
And the city lights were all we knew, all we knew.

You know I'm down here and I'm trippin' up and I'm
fallin' out about
Those times you promised me you'd stay the night

So let's take it back to the nights
When we'd watch the sun go down
And the city lights were all we knew, all we knew.
