Try to match every step for every song
It's all about getting there and singing loud
We'll jump all night
Calling up all our friends to make it out
For all the times we sang our voices dry
We'll make good time
Tonight the heat's beating down on our necks
So we'll tear it up and we'll sell it out
'Cause the show's ours tonight

This is how we do it
You are the ones, you are the ones
This is the way we do it
You set the scene, and we'll set it off

We'll take the stage and play it all for you,
Another night just to sing these words to you,
A different city doesn't mean a thing to me,
Whoa, whoa
We'll hit the coast and we'll always follow through,
Your home town like we've always wanted to,
A different city doesn't mean a thing to me,
Whoa, whoa

Leave it up to the crowd just to get it done
I'm standin' here just about to take the dive
For one more night
We roll with the seasons like we even have time
Shift between the miles and find our town
Come on turn out the lights
Tonight the stars are playing on through our eyes
So we'll make it out and we'll sing it up
'Cause the show's yours tonight

This is how we do it
You are the ones, you are the ones
This is the way we do it
You set the scene, and we'll set it off

We'll take the stage and play it all for you,
Another night just to sing these words to you,
A different city doesn't mean a thing to me,

Whoa, whoa
We'll hit the coast and we'll always follow through,
Your home town like we've always wanted to,
A different city doesn't mean a thing to me,
Whoa, whoa

And I know where to go from here
Highway straight to the heart of our town
One more night to get up, and get down
Make the show, and hang out by the pier
(Come with us and sing along, sing it loud)
