

## **We Say Summer "These Sunsets"**

Visit "[These Sunsets](#)" on MotoLyrics.com

Let's take the best times  
And time our best smiles  
We can bottle 'em up  
And play them back again  
When the tide roles in  
You'll be the east and I'll be your sun

You know me, I see you  
The fireworks play again and again  
We'll take this and break it  
For every time we missed the sunrise  
And we'll come home with the stars  
'Cause I just can't figure you out

And we'll stalk these sunsets  
Keep it going for a few more days  
While the months fall back with our dreams  
I think you know just what I'll say  
We'll pull towards these warmer days and  
Homesick nights we'll chase away  
And I'm coming home to you

I'm down here, and breathless  
The shoreline's calling your name again and again  
We'll take this and break it  
For every time we missed the sunrise  
And we'll come home with the stars  
'Cause I just can't figure you out
