Hipshake ringtone on your mobile phone  
I see your hips shake like a killer,  
I see your eyes flash like a mirror,  
Take my hand and we'll go into the town,  
My head it pounds and pounds.

Tell me what you want baby,  
(I wanted everything)  
Tell me how you like it,  
(Go easy, oh tiger)  
Tonights the night honey,  
I wanna see you dance.

You try to hit hit hit on me,  
But i won't fall for your stories,  
You've got eyes like sin,  
Skin like cream,  
But i won't fall, that easily...
